

C.L.E.V.E.R. EN-Gauge

Carbon Life has devised a unique Suite of mechanisms, "The C.L.E.V.E.R. Suite". The "C.L.E.V.E.R. Suite" allows any individual or company to become involved in Climate Change with minimal upfront cost, low impact implementation requiring nominal client resource.

This document is to introduce the C.L.E.V.E.R. EN-Gauge, a member of the C.L.E.V.E.R. Suite of mechanisms. Carbon Life has partnered with L'ATELIER to provide a full, Free, Carbon and Energy Management solution for its clients.

- Completely **Free** to Use
- No Hardware Expense (paid for by the fund)
- Fully Integrated Carbon & Energy Management System.
- Self Generating Fund with **NO upfront cost**
- Re- Negotiated Utilities Contracts to provide Instant Savings
- **OUR** Commission from the energy companies paid into the **C.L.E.V.E.R EN - Gauge** Fund to allow instant engagement
- Energy Reduction between 10% - 33%

C.L.E.V.E.R. EN – Gauge will analyse your organisation to understand exactly where you are wasting Energy, Carbon & Money

C.L.E.V.E.R EN – Gauge is a completely FREE, Self Generating Fund, supporting the removal of GHG's from our atmosphere and reducing costs associated to Energy use.

C.L.E.V.E.R EN – Gauge will only cost an organisation its co-operation. By using our uniquely developed analysis software, we can reduce your Energy Costs and associated Carbon by between 10% - 33%. By Re-Negotiating your existing utilities contracts, and using our advanced position in the Energy Market, **C.L.E.V.E.R EN – Gauge** will provide instant financial savings for your Organisation.

C.L.E.V.E.R. EN – Gauge utilises 50% of the ongoing generated savings, allocating them back into the Fund, you will never have to pay a Penny to maximise your Energy Management and Carbon Reduction objectives.

C.L.E.V.E.R. EN – Gauge invests its commission for negotiating your utilities contracts from the Broker into your organisation, providing a platform to achieve a **No Cost Solution**.

C.L.E.V.E.R EN – Gauge has partnered with L'atelier and Independent Utilities to provide a fully reportable mechanism for Energy Procurement, Energy & Carbon Management. Day+ 1 reporting on your Energy and Carbon Usage. With the CRC Energy Efficiency Scheme now in practice, we can incorporate a service bespoke to your requirements into the mechanism to meet your CRC Obligations. (Please see CRC Energy Efficiency Scheme info doc for more details).
